TO: All 6th District Members

The 6th District website is available for use at the following web address:

www.wilegion6.org

Please visit this web address and bookmark it for future reference. This will be the permanent home of the 6th District and your one stop location for all future District information. Please pass this website address on to all Post members.

To ensure important Legion information is reaching the post membership, each Post Commander should appoint a Post Communications Officer. This member should have access to the inter-net and will be responsible for:

1. Receiving informational e-mail from the District and Department.
2. Receiving weekly electronic newsletters.
3. Regularly checking the District and Department websites for information concerning upcoming events and programs.
4. Submitting upcoming event information, event pictures, or articles of district significance to the District Communications Officer for display on the 6th District website. (address above) If you cannot send it to me electronically, mail it, I will scan it and return all the materials back to you.

This appointed post member does not need to be the current Post Adjutant or Commander, but rather a post member that can relay important information to the appropriate Post officers. Please send the mail, phone, and e-mail addresses of all post Communications Officers to me as you appoint them. In the near future, I will be scheduling website training for the Post Communication Officers to help these members complete their duties.

This new District tool to improve District and Post communications will be uncomfortable for many, but your leadership and support will greatly help the Legion make this a smooth transition into the future.

Thank you for your support,

Bob Wipf
6th District Communications Officer
